Report of Superintendent of Schools

TO THE CITIZENS OF ISLE AU HAUT:

I respectfully submit the following report of schools for the year closing March, 1908.

The advancement of the schools during the past year will compare favorably with previous years, as we have been successful in securing the services of faithful and efficient teachers. The children have shown a growing interest in their school work, and several have expressed a desire to fit themselves so as to attend some higher institution of education, and the standing of the classes compare favorably with schools of similar grades throughout the district. The school building in No. 1, is in very poor condition, and with poor light and no ventilation, other than windows, it is impossible for children to do the work they naturally would, and if a new building is not built the old one should receive extensive repairs. It is well known that there is no available room for a school at Head Harbor, and with the present number of scholars it seems to be the best investment to maintain a school which will require some provision for a building the coming years. In closing this report, I wish to express my appreciation of the hearty co-operation of the school committee, parents and teachers in the welfare of the schools.

Respectfully submitted,

T. M. COOMBS,

Superintendent of Schools.
